Mr. Allan Topol

Washington, D.C.

Dear Mr. Topol:

As requested, I am attaching a comparative analysis of the nicotine and "tar" (TPM Dry) determinations made by the FTC laboratory and TITL based on the reported data for Tests 5 through 9.

Due to the large masses of data involved and the resulting considerable expenditure of time and money which would otherwise have resulted, I have performed tests of statistical significance only where critical.

Sincerely,

Herbert Arkin
